

Amerex CPS FM-200® Waterless Pre-engineered Fire Suppression System

A Simple Solution

An Affordable Approach

An Industry Innovation

CPS

A SIMPLE SOLUTION. AN AFFORDABLE

How many days of lost productivity would your business suffer if you experienced a fire in your server room? How catastrophic would it be if a fire destroyed irreplaceable records and documents in the storage room of your corporation? What would happen if a data center went up in flames and many years of data were unrecoverable?

Amerex offers the CPS Clean Agent Fire Suppression System utilizing FM-200®, the most trusted waterless fire suppression agent in the industry. Years of proven Amerex innovation plus FM-200 equals CPS, a cost effective, reliable, waterless fire protection solution for your critical data and sensitive electronic equipment. Finally, CPS is the solution customized for your needs.

Amerex CPS Stands Out: Clean and Simple

At the core of the Amerex CPS is FM-200, a waterless clean agent that puts safety first—safe for you and your people, safe for your delicate electronics and data, and safe for the environment. The EPA has approved FM-200 for use in normally occupied spaces as a safe and environmentally friendly clean agent. In fact, more large data centers and telecommunication sites are protected with FM-200 than any other alternative agent.

Amerex CPS was developed so installation could be simple and efficient. The complete system, including smoke detection with alarms, is modular to assure simple and trouble-free wiring for the installer. Innovative concepts in the design provide flexibility in tank and nozzle locations removing design and installation challenges often encountered with other systems.

The clean and simple Amerex CPS FM-200 system is the perfect solution for you if loss of data, equipment, or other critical assets could result in lost business.

APPROACH. AN INDUSTRY INNOVATION

The Amerex CPS was Developed for these Typical Applications:

- Data Processing Centers
 - Server Rooms
 - Tape Storage and Data Vaults
 - UPS Rooms
- Telecommunications, PBX & IDF Rooms
 - Cell Sites
- Process Control Rooms
- Healthcare Facilities
 - Medical Record Storage
 - CT/CAT Scan & MRI Control Rooms
- Laboratories
- Museums and Cultural Centers

FM-200[®] WATERLESS
FIRE
PROTECTION

DATA PROCESSING CENTERS • SERVER ROOMS • TAPE STORAGE AND DATA VAULTS • UPS ROOMS

TELECOMMUNICATIONS, PBX & IDF ROOMS • CELL SITES • PROCESS CONTROL ROOMS

HEALTHCARE FACILITIES • MEDICAL RECORD STORAGE • CT/CAT SCAN & MRI CONTROL ROOMS

LABORATORIES • MUSEUMS AND CULTURAL CENTERS

A SIMPLE SOLUTION. AN AFFORDABLE

Amerex Corporation offers the exclusive Amerex CPS, which stands for Clean Agent Pre-Engineered System. The Amerex CPS is a carefully developed fire suppression system designed to help companies maintain business continuity and protect irreplaceable, critical assets from the risks of fire without putting people or the environment at risk.

The agent used in this unique system is the industry leading FM-200 Waterless Fire Protection, an environmentally friendly clean agent manufactured by Great Lakes Chemical Corporation™, a wholly owned subsidiary of Chemtura Corporation. FM-200 was selected as a top product for 2005 by *Buildings Magazine* for its ability to stop a fire within seconds with no water or collateral damage while still being safe for sensitive electronics and people.

Here is a building diagram showing specific applications for which the exclusive Amerex CPS was designed.

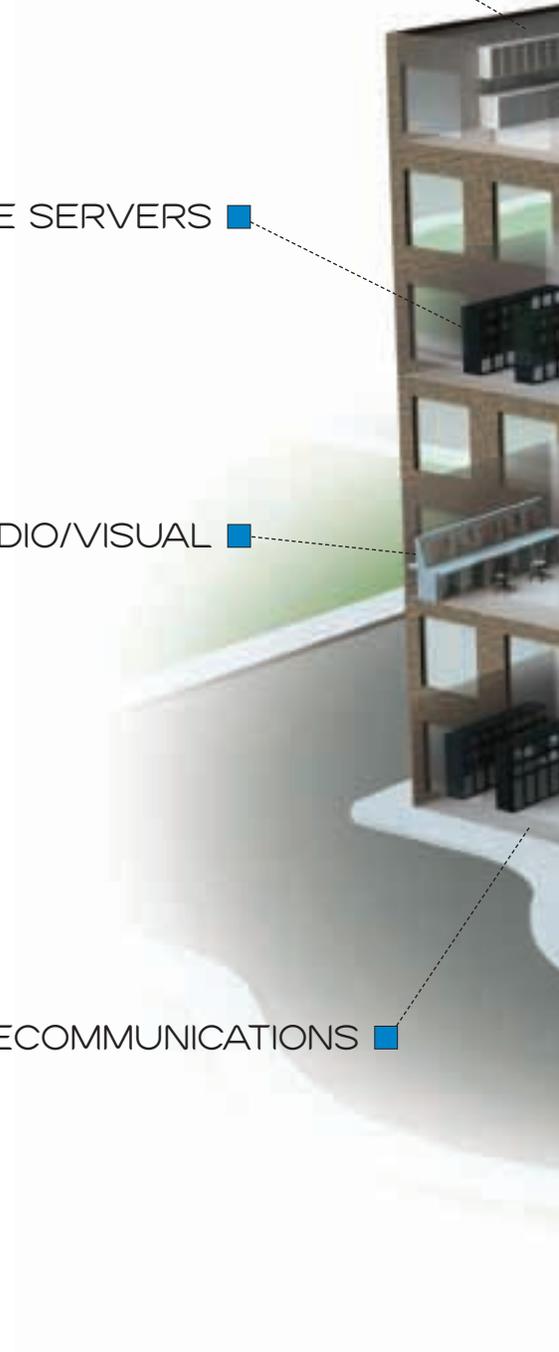

LABORATORIES ■

REMOTE SERVERS ■

TELECOMMUNICATIONS ■

APPROACH. AN INDUSTRY INNOVATION

■ TEST CHAMBER AND CONTROL ROOM

■ RECORDS AND DOCUMENT STORAGE

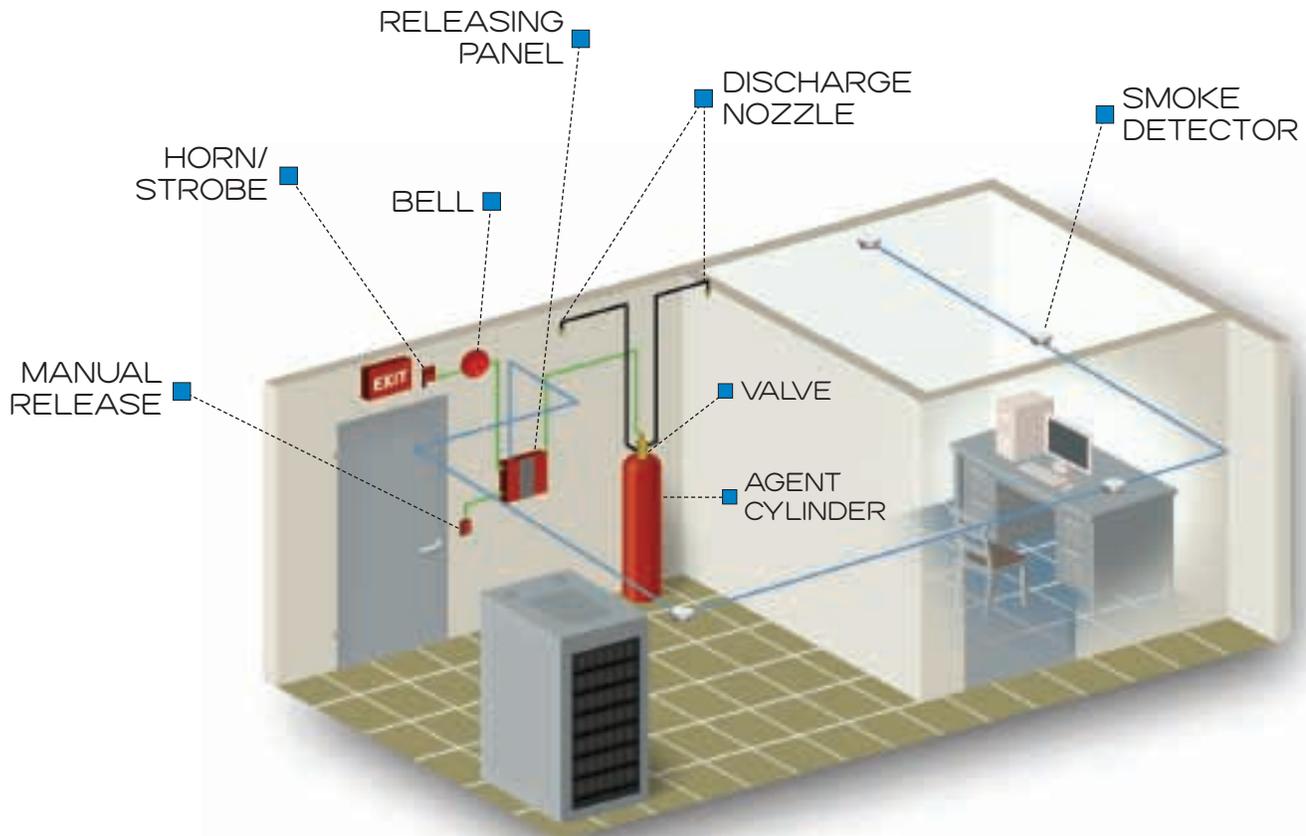

■ DATA STORAGE

DATA PROCESSING ■

Fire extinguishers should be available to protect areas outside the coverage area. A fire hazard analysis should be performed prior to system installation to assure proper and balanced fire protection.

APPROACH. AN INDUSTRY INNOVATION

The new Amerex CPS Clean Agent Fire Suppression System is finally here to create a unique and customized total fire protection system to protect your critical assets. Call today to schedule a consultation about how you can incorporate the Amerex CPS System into your business strategy so that your business will stay in business—and you can have peace of mind.

The Amerex CPS:

A simple solution, an affordable approach, an industry innovation.

The Amerex CPS is listed or approved by:

- Underwriters Laboratories, Inc. (UL)
- Underwriters Laboratories of Canada (ULC)
- Factory Mutual (FM)

The Amerex CPS complies with:

- NFPA 2001 Clean Agent Fire Extinguishing Systems
- ISO-14520 Gaseous Fire Extinguishing Systems
- EPA SNAP Program
